

Commissioner's Report

On the Offer or Sale of Securities by Permit under Corporations Code Section 25113

California Department of Business Oversight

December 2014

Introduction

Section 25113(d) of the Corporate Securities Law of 1968 (Corporations Code section 25000, et seq.) requires the Department of Business Oversight (Department) to prepare an annual report summarizing data collected from small corporations granted permits to offer and sell securities pursuant to section 25113's other provisions. The report must include the following information:

- A summary of the general categories of investments for which permits were approved
- The minimum, maximum, and average net worth required of permit holders
- The least stringent and most stringent suitability standards imposed on persons issued permits for each category
- The experience requirements imposed
- The total dollar amount of money sought to be raised per category
- The number and nature of enforcement actions taken against permit holders
- Any other information deemed relevant by the Commissioner of the Department (Commissioner).

Data and Summary from 2013

Generally, under the Corporate Securities Law of 1968, the offer and sale of a security requires either a permit from the Department or an exemption from the permit requirement. A total of 115 permits were issued under Corporations Code section 25113 in 2013.

General Categories of Investment

In 2013, the Department issued securities permits in the following categories of investment: agriculture, church debt, church extension fund, cooperative, employee compensation, manufacturing, membership, microlender, minerals, mobilehome park, mortgage, mutual water company, real estate, real estate investment trust (REIT), technology, and other.

The table below breaks down the number of permits issued by category of investment:

**The category “other” includes charity, derivative contracts, mortuary, music production, pharmaceutical, project management, investment, and wholesaler.

Investor Suitability Standards

The Commissioner has broad discretion under the Corporate Securities Law of 1968 to set standards for the offer and sale of securities. The Commissioner may require investors to meet specific qualifications related to experience, level of financial responsibility, tax status, or any other criteria the Commissioner deems necessary.¹ These “investor suitability” standards are imposed as needed and depend on the securities issued. As reflected in the table below, both the least stringent and most stringent standards varied by category of investment. For some investment categories, no investor suitability standard was imposed. In other words, the issuer was permitted to offer and sell the securities in an “open qualification” to the public generally.² When investor suitability standards were imposed, the Commissioner in most cases restricted the offer and sale of the securities to persons having a minimum gross income and minimum net worth, or limited the percentage of net worth a person could invest. The table below sets out by category of

Standards for Issuers or Sponsors

- Experience Requirements for Persons Issued Permits

The securities permit application requires the issuer to provide the Department an explanation of the applicant's business experience. The Department evaluates the applicant's business experience along with other information provided in the application. The Corporate Securities Law of 1968 imposes no experience requirement that applies to all issuers. However, regulations set experience standards for issues or sponsors in the Real Estate Program³ and in oil and gas offerings.⁴

In a real estate program, the general partner of the sponsor must have at least two years of relevant real estate experience or other experience relevant to acquiring and managing the types of properties sought by the program.⁵ Additionally, any affiliate providing service to the program must have no less than four years of relevant experience in the kind of service being rendered, or otherwise demonstrate knowledge and experience to render the proposed services.⁶

In an oil and gas offering, the general partner or its chief operating officers must have at least three years relevant oil and gas experience demonstrating the knowledge and experience to manage the operations.⁷ Additionally, the general partner or any affiliate providing services to the program must have at least four years relevant experience in the services being rendered or otherwise demonstrate sufficient knowledge and experience to perform the services proposed.⁸

- Net Worth Requirements for Persons Issued Permits

Although Corporations Code section 25113(d) requires that the report include the "...minimum, maximum, and average net worth required of those persons to whom permits are issued for each category," the Commissioner generally does not require specific net worth or minimum capital requirements of the issuer or sponsor unless required to do so by specific rule. In that regard, regulations governing REITs (Real Estate Investment Trusts),⁹ Real Estate Programs,¹⁰ and Oil and Gas Interests¹¹ specify net worth requirements.
