In July 2014, the California Department of Business Oversight (DBO) requested DBO-licensed deferred deposit originators (commonly referred to as “payday lenders”) to submit the 2014 *California Deferred Deposit Transaction Law Industry Survey* (Survey). The Survey is required in accordance with Financial Code Section 23015.

The purpose of the Survey was for the DBO to gather current activity data on transaction activities of licensees and potential consumer risks in order to assess the fiscal health and compliance practices of California’s deferred deposit originator industry. The Survey collected 2013 information on payday lender issues and activities related to the following:

- Transactions per Customer
- Customers’ Income
- Internet Transactions
- Lead Generators
- Military Customers
- Payments to Customers
- Repayment from Customers
- Collections
- Customer Complaints
- Independent Agents

Responses by the licensees to the Survey have been consolidated into a Summary Report and shall remain confidential under Government Code Section 6254(d). The Summary Report has been included with this letter for your convenience and can also be found on the DBO website under “Publications.” If you have questions or comments about the Summary Report, please contact Patty Salazar, Deputy Commissioner of Public Affairs, at (916) 322-8899 or Patty.Salazar@dbo.ca.gov.

Summary Report:
California Deferred Deposit Transaction Law – Industry Survey

Introduction

The California Deferred Deposit Transaction Law – 2014 Industry Survey (Survey) was administered to all California licensed Deferred Deposit Originators (commonly known as payday lenders) in July of 2014. The response rate was 78%, with 273 licensees reporting.

Licensees were asked to provide information from January to December 2013. The purpose of the Survey was to capture information about licensee activities and was not an attempt to capture consumer behavior. The Survey collected information on payday lender issues/activities related to the following:

- Transactions per Customer
- Customers' Income
- Internet Transactions
- Lead Generators
- Military Customers
- Payments to Customers
- Repayment from Customers
- Collections
- Customer Complaints
- Independent Agents

This Report provides a summary of the aggregated information collected by the Survey and is based on unaudited data provided by licensees. Responses to the survey were received by August 19, 2014.

Due to fluctuations in the deferred deposit licensee population and the difference in response rates, data included in this Report is not comparable to data included in the DBO Annual Report: Operations of Deferred Deposit Originator under the California Deferred Deposit Transaction Law.

---

1 For comparison purposes, this 2014 Report reflects aggregated data for the calendar year 2013 only. For the 2013 Report licensees were asked to provide information for calendar year 2012, as well as partial information for 2013 (January 1 – May 31st).
Deferred Deposit Transaction Volumes per Customer

Questions one through ten of the Survey asked deferred deposit transaction originators (payday lenders) to report the number of customers who have obtained a specified number of transactions during 2013. The table below and graph to the right provide the aggregated response data for each question.
